Press Release

As the Colonial West's Rivalry Unfolds Within a Stone's Throw of Makkah and Madinah O Ummah of Islam, Rise and Expel Them, and Rid Your Lands of Their Evils! (Translated)

Saudi Arabia, together with 13 other countries, announced the establishment of a multinational defensive maritime alliance under its leadership. The move was said to aim at protecting international navigation, trade routes, and energy supplies from growing threats in the Red Sea, Bab al-Mandab, and the Gulf of Aden, following attacks by the Iran-aligned Houthi group that disrupted one of the world's busiest trade routes.

An observer of this action will realize that its true objective is to protect the economies of the colonial kufr (disbelieving) West by securing the flow of oil to them, at the expense of the very Muslims who own that oil, and through the hands of their treacherous rulers who ensure the delivery of raw materials to drive the economies of the kuffar who crush the Ummah everywhere!

At the conclusion of the meeting, a statement was issued welcoming the establishment of this alliance of 14 participating countries: Saudi Arabia, Kuwait, Bahrain, Qatar, Pakistan, Türkiye, Egypt, Jordan, Yemen, Bangladesh, Nigeria, Sudan, Djibouti, and the Federal Republic of Somalia. Abu Dhabi and Muscat publicly did not welcome the establishment of this alliance, while the list of the other invited countries was kept undisclosed.

This alliance will lead to destabilization at the heart of the Muslim lands and lay the groundwork for sectarian confrontation. Saudi Arabia participated with U.S. CENTCOM in launching airstrikes in eastern Iraq on 29/07/2026, after accusing it of carrying out attacks inside Saudi territory on 27 and 28/07/2026. Washington controls this alliance through its presence, management, and ability to ignite conflict whenever it is absent from it!

This suspicious alliance comes amid the aggression by America and its protégé, the Jewish entity, against Iran, which began on 28/02/2026 and continues to this day in the Strait of Hormuz, as well as after the Houthis imposed a naval blockade on Saudi vessels in Bab al-Mandab on 20/07/2026.

In 2015, Riyadh was directed to lead the Arab coalition in order to redraw the features of the Middle East after 100 years had passed since the implementation of the 1916 Sykes-Picot division, according to America's plans in its war against Islamic civilization.

A careful observer will find that the Red Sea, which lies close to the House of Allah in Makkah, with Madinah and the Prophet's Mosque nearby, remained a purely Islamic sea. European ships and sailors—Portuguese, British, French, and others—were prevented from approaching it. With the decline of the Khilafah (Caliphate), it became an area of conflict between Britain, the old colonial power, and America, the new colonial power.

International blocs pose a danger to peace and to other states, and create immense evil on the international stage. America led international military alliances against Iraq in 1991, Afghanistan in 2001, and Iraq again in 2003, primarily to achieve its own interests. Therefore, the concept of international blocs must be changed among peoples and states that embrace the idea of such alliances.

O People of Faith and Wisdom: Is there not among you strong men who will work tirelessly to sweep away the agent rulers who make you taste poverty and calamities, pave the way for the colonial disbelievers to achieve their desires, and spill your blood for their benefit?!

Who among you will work to expel the filth of the earth from the afflicted lands surrounding the Two Holy Mosques, so that purity may return to them as it was under the Khilafah?

The Prophet (saw) said: «ثُمَّ تَكُونُ خِلَافَةٌ عَلَىٰ مِنْهَا جِ النَّبُوءَةِ» **“Then there will be a Khilafah upon the method of Prophethood.”**
