Yesterday, on 31/01/2014 the first round of the Geneva II Conference over the Syrian issue came to an end, which had lasted one week. The next round of talks "for the time being" is to be held on the 10th of February. Ibrahimy considered this round to form "a very humble beginning...but we can build on it" in the direction of finding a solution for the Syrian crisis that has been going on for almost three years. He added: "The gap between the two sides is still great ... But I've noticed that there is a small common ground for perhaps more than both parties realize" based on ten points, of which the most important are: "That both parties know that they have to set up a transitional governing body with executive authority." In addition to "national dialogue and revision of the Constitution and elections," as well as the "rejection of violence, extremism and terrorism," about which Ibrahimy said that both parties have declared their rejection in their own words. As for the opposition's delegation, its member Louay Safi, speaking on behalf of it, found that: "The only progress that took place is the commitment of the regime to negotiate within the framework of Geneva." He accused the regime that it "does not want neither a political solution, nor does it want to progress in the form of a single point on the road to ending the crisis." While al-Muallim described the opposition as "lacking maturity" and "intransigent on one subject, as if we had come for an hour to hand over everything to them and go."

As for what has been mentioned in the media about the failure of the Conference and the positions being rigid and divided: It is too early to judge that, and it is only a role played by the suspicious, purchased media to make people delve into the details and lose sight of the reality of the conspiracy.

The observer of the Conference's objectives will see that they are all American targets. Therefore the mere acceptance to hold the conference was a means of putting the solution on American tracks, and its mere holding means that the train of the American solution has already pulled out. It means that this trip will drag on until America is done with installing its entire solution on the ground. With this trip the tragedies will lengthen in accordance with the pressures exerted on the opposition through their agent Bashar's usage of bombardment, siege, starvation, horrific massacres and exploitation of humanitarian cases...all to impose the American solution.

This will continue until the opposition does not find before itself but the acceptance of some basic details of this solution. In this regard, it is noteworthy that during only the first week of the negotiations, around 1900 people died. What emerged from differences between the regime and the opposition was not about goals, but about priorities. Amidst the push and pull over what comes first, the "fight against terrorism" as demanded by the regime, or "the establishment of a Transitional Governing Council" as demanded by the opposition - both of which are U.S. demands - America will prepare the ground to implement its agenda to fully resolve the issue. America will do so through the establishment of the Transitional Governing Council (similar to the former sectarian Transitional Governing Council in Iraq). Then they will install an "active" international force on the ground (similar to the international ISAF forces in Afghanistan) to provide support for the national army, whose restructuring America will sponsor and hand over to those of most American loyalty, also promoting the sectarian aspect within the national army. By creating the political governance body, the national army and the international forces, America will have grabbed the reins of the Conference and directed it towards the implementation of its agenda, embodied in striking the owners of the Islamic project, who call to and work for the establishment of the rightly guided Khilafah that has been ordered by Allah Almighty. Striking this project is approved by both the regime and the opposition, which have to be considered two sides of one American agency.

It is very well known that America is currently the strongest part in the Conference. America was represented by the presence of Foreign Minister Kerry with a delegation led by Ambassador Ford, who stands behind the preparation of this Conference and works to create the conditions for its success. America is furthermore represented in the political assistant of the Secretary-General of the United States, Jeffrey Feltman, who forms one of the pillars of U.S. foreign policy and who was an aide to former American Secretary of State Clinton. On top of that, America uses the Secretariat of the United Nations as one of its tools to achieve its interests. And finally America has the Russian position, which flows into American interest, and the Syrian regime, which has to be considered an American product, and the Syrian opposition that travails to please America. Therefore a big conspiracy against Muslims and a betrayal of Allah and his Deen stand behind this conference. Especially since the declared objective of this conference - which the opposition approves of and vaunts - is to strike political Islam for the sake of establishing a secular, Kaffir civil state, which on top of all will be an American agent, just as is the states of the butcher Bashar and his perished father.

Oh Sincere, Steadfast Muslims in Syria ash-Sham, the Abode of Islam:

America has been calculating this Geneva Conference for three years, during which it procrastinated solutions and ordered its agent Bashar to commit the most heinous, inhuman crimes in your right, because of what you have declared from following an Islamic project. Here is America today, after having prepared its Conference against you, moving on the international stage, for it to

be passed through the Geneva Conference. America will order its agent and your enemy Bashar to increase his criminality to make you give in, so that you accept their project embodied in the establishment of a secular, Kaffir civilian rule that serves it as an agent. America harnesses the opposition of the secular coalition that was imposed upon you, and that does not represent you in any way, to accompany it in striking the Islamic project.

Do you accept that?! Just as America has ordered the butcher Bashar, its agent, to strike you, it will order its new agent Ahmed al-Jarba to strike your Islamic project. This reality reminds us of the speech of the Messenger of Allah (saw), who described it as if he were living among us, when he said:

«حتى يصير الناس إلى فسطاطين: فسطاط إيمان لا نفاق فيه، وفسطاط نفاق لا إيمان فيه»

"Until people will be divided into two camps: The camp of Iman that is free from hypocrisy, and the camp of hypocrisy that is free from Iman."

The Shariah requires us to stand against the American Kaffir project and drop the Geneva Conference entirely. And to be with the Islamic project only. Hizb ut Tahrir is a pioneer in the call for the establishment of the Khilafah, and the pioneer does not lie to his people. It calls - following the example of the Messenger of Allah (saw) in the call for the establishment of the law of Allah - upon the sincere people of power from the believers, wherever they are, to declare with all power and openly their opposition against Geneva and its outcomes and to unify their work in one goal: to support their Deen through the establishment of a rightly guided Khilafah State. This is the only correct response that satisfies Allah (swt), and radically changes the conditions of Muslims, so that not a single trace of Kufr remains in the Muslim lands. He (swt) said, encompassing the people of rule from the Meccan immigrants and the people of power and victory from the inhabitants of Madinah:

﴿الَّذِينَ آمَنُوا وَهَاجَرُوا وَجَاهَدُوا فِي سَبِيلِ اللَّهِ بِأَمْوَالِهِمْ وَأَنْفُسِهِمْ أَكْبَرُ دَرَجَةً عِنْدَ اللَّهِ وَأُولَئِكَ هُمُ الْفَائِزُونَ يُبَشِّرُهُمْ رَبُّهُمْ بِرَحْمَةٍ مِنْهُ وَرِضْوَانٍ وَجَنَّاتٍ لَهُمْ فِيهَا نَعِيمٌ مُّقِيمٌ ﴿٢٠﴾ خَالِدِينَ فِيهَا أَبَدًا إِنَّ اللَّهَ عِنْدَهُ أَجْرٌ عَظِيمٌ﴾

“The ones who have believed, emigrated and striven in the cause of Allah with their wealth and their lives are greater in rank in the sight of Allah. And it is those who are the attainers [of success] ﴿٢٠﴾ Their Lord gives them good tidings of mercy from Him and approval and of gardens for them wherein is enduring pleasure ﴿٢٠﴾ [They will be] abiding therein forever. Indeed, Allah has with Him a great reward.” [At-Tauba: 20-22]

And He (swt) said:

﴿وَالسَّابِقُونَ السَّابِقُونَ أُولَئِكَ مِنْ الْمُهَاجِرِينَ وَالْأَنْصَارِ وَالَّذِينَ اتَّبَعُوهُمْ بِإِحْسَانٍ رَضِيَ اللَّهُ عَنْهُمْ وَرَضُوا عَنْهُ وَأَعَدَّ لَهُمْ جَنَّاتٍ تَجْرِي تَحْتِهَا الْأَنْهَارُ خَالِدِينَ فِيهَا أَبَدًا ذَلِكَ الْفَوْزُ الْعَظِيمُ﴾

“And the first forerunners [in the faith] among the Muhajireen and the Ansar and those who followed them with good conduct - Allah is pleased with them and they are pleased with Him, and He has prepared for them gardens beneath which rivers flow, wherein they will abide forever. That is the great attainment.” [At-Tauba: 100]□

Security Agencies in Tatarstan Severely Oppress Muslims

(Translated)

At the end of the month of January 2014, news arrived from Tatarstan regarding the arrest of several Muslims. Inspection, detention, kidnapping, torture and trials have become a repeated occurrence, all of which makes conveying this painful news difficult. Noting the fact that the persecution of Muslims is continuing all over Russia, and not only in Tatarstan.

Now there are tens of Muslims lying in the prisons of the cities of Neftekhimik and Chistobl who were arrested in November 2013. Brutally tortured with electric currents and suffocation, the backbone, rib cage, and legs of some prisoners were broken; including burning one of the brother's private part.

During the second half of January 2014, throughout the cities of Tatarstan: Kazan, Neftekhimik, Elapog, Nizhny Chelny, Olmatvsk, Nurlat, Chistobl and Oznakayv; Muslims were arrested and their homes searched. Legal pursuits and trials against Muslims are taking place in other cities. On January 20, 2014, rt.rbc.ru website reported that the Minister of the Interior in Tatarstan, Jukhurin, speaking regarding the bombings and explosives found, said, "We and our allies in the Russian intelligence are obligated to exert our best in order to bring the perpetrators of these bombings to trial and they are from Hizb ut Tahrir, so that not one of them escape punishment."

These are blatant lies and accusation against Hizb ut Tahrir using violence or terrorism. Hizb ut Tahrir is a political intellectual party that rejects any use of material force in its struggle, and that this charge shows the insolence of the rulers of Russia.

On 30 December 2013, in the city of Volgograd a sit-in was dispersed by force on the next day following the bombing of the train station. Near the church nearly 200 residents of the city gathered and raised the slogan: "Intelligence earns millions because of the bombings."

Muslims are the first to be accused in each bombing. According to video recordings that appeared on the Internet, discussions have started about the intelligence repeating the same techniques used in the late nineties when Russia was shaken because of the bombings carried out by the brutal intelligence.

Russia's government is now terrified of the establishment of an Islamic state anywhere in the world, because it fears that it will stir the Muslims in Russia. This increases their brutality without any humane sentiments due to

external pressures against these Muslims. On 24 January 2014, Putin discussed with the director of security services and ministers the situation in Syria, as reported by the Kremlin press.

During these days in the city of Geneva, a World Conference is being held to try to resolve the problem of Syria. It is obvious that this conference is a Western attempt in cooperation with Russia in order to gather the parties of the conflict: Bashar al-Assad and his opponents. The West wants to apply its view of the political exit from the crisis. The crisis has become a struggle between Islam and Kufr. The West and Russia are afraid of the establishment of the Islamic Khilafah, and they are fighting with full force for a secular Syria by crushing Muslims working for Islam.

Itar-Tass Channel reported on 22/01/2014 the statements of Lavrov, who said: "If the participating countries in the conference are unable to talk about a Syria that can maintain its diverse ethnicities and civil nature in the first phase, in my opinion, it is considered greatly alarming."

This is an escalation in the war against Islam in Russia, which fears the establishment of the Khilafah in Syria. The arrival of the Muslims to power with the best system of government (the Khilafah system) will teach immediate historical lessons to the corrupt that reject the truth. Thus are the corrupt and the criminals who will always stand against Islam; even if it violates their own laws.

They are weak in the face of the truth and Islam, which is close to every sane thinker, Russian, and Arab. This Universe belongs to one Creator, the One who sent His Messenger Muhammad (saw) as a mercy to mankind with the message of Islam: the Quran, the Sunnah and the sources they refer to.

Anyone who proclaims this publically will be arrested by the rulers of Russia, and will be branded as a fundamentalist and a murderer and will be imprisoned; his family: sons, daughters, and relatives will be subjected to harm.

We ask Allah to help us and make us steadfast in carrying His message, and make our work purely for His sake (swt), and that it is accepted from us and well received.

Oh Allah, oh Rahman the Most Bountiful, bestow upon the Muslim Ummah - the best nation brought to Mankind- the completion of your best and mighty victory soon.

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا إِن تَنصُرُوا اللَّهَ يَنصُرْكُمْ وَيُثَبِّتْ أَقْدَامَكُمْ﴾

“O you who have believed, if you support Allah, He will support you and plant firmly your feet.” [Muhammad: 7]□

Abbas, President of the Palestinian Authority, is Paving the Way for a New Crusader Invasion

(Translated)

The President of the conspiring Palestinian Authority, Mahmoud Abbas, confirmed in an interview with *The New York Times* published on 02/02/2014, that he has suggested to the U.S. Secretary of State John Kerry, the deployment of U.S. led NATO forces in the territory of the future Palestinian state, and that NATO forces will remain for a long time and are to maneuver wherever they want and at all border crossings including Jerusalem (Al-Quds). Abbas confirmed that his imaginary state will be without an army and demilitarized and will have only a police force. Hence, the international force will take up the task of preventing the smuggling of arms and fighting the terrorist acts that scares "Israel."

In his interview with the Jewish newspaper, *Yediot Ahronot*, on 01/27/2014, Abbas mentioned this proposal and added: "All the Security Agencies are carrying out the same task; which is to prevent anyone from smuggling weapons or who wants to use these weapons, whether in the Palestinian territories or in "Israel", this is the main preoccupation of the Security Services, and this - no secret that I hide - with the full cooperation between us and the Israeli Security Services and the American Security Services".

These statements if uttered by the President of any country in the world, he would have been overthrown for committing high treason, but how impossible is this to happen in these quasi-states that subject its institutions and agencies to suppress the people and to protect the corrupt and service the colonists.

Abbas, his Authority and his Organization have consistently conspired against Palestine and its people. They committed their crime in Oslo and gave legitimacy to the Jewish entity on the blessed land, and wore a garment of shame and disgrace by the security coordination to maintain the security of the Jews. Today, the Palestinian Authority's pursuit to give legitimacy to the international occupation, to perch on the chest of Muslims in Jerusalem and its surroundings, is a great crime and what a crime!

Britain has sought to send international troops to Palestine and to Jerusalem in particular, to achieve the crusade ambitions but it failed to do so. Then America grabbed this project and practically adopted it after the war in 1967 and sought to implement it repeatedly through their agents but failed to implement it until now. Everyone, the distant and the near, realizes that Mahmoud Abbas is unable to propose to the United States in this regard;

this is distinctively an American project; therefore, Abbas and his Organization and Authority are only a tool in its implementation.

America and the West warned leaders of the occupation that their entity is in danger and that they are at the fore-front of a historic opportunity to preserve their state if they accepted the American vision of peace.

America and other Western countries realize that the Ummah is poised to restore its authority and remove the rulers of devilry, the agent who protect the borders of the occupation. They warned of the Khilafah, which will uproot their influence in the Muslims countries and mobilize its armies to liberate the whole of Palestine and destroy the occupying entity. This is why they are seeking to sign a comprehensive peace agreement that protects the security of the Jews and deploys the American and Western international forces in Jerusalem and the Jordanian border, and most of the border areas to prevent the armies of the Khilafah from advancing to liberate the blessed land.

Dear people in Palestine - the Blessed Land:

You have suffered from the Palestinian Authority which works under Jewish occupation, then what will your expectations be if it turned into an agency operating under the international occupation, with its mission is to fight "terrorist acts", as called by Abbas?! Your sons, who are determined to liberate Palestine from the Jews, will not only be chased by the occupation patrols or the Palestinian Security Services, but will also be pursued by the NATO forces.

Your sons will not only be in Jewish detentions or the Palestinian Authority prisons, but they will be placed in prisons like Abu Ghraib Prison in Iraq and Bagram Prison in Afghanistan, and American secret prisons. And in addition to the Jewish occupation, there will be an international occupation led by America- the enemy of Islam and Muslims. This reminds us of the Crusades led by the kings of Europe and its czars to Palestine. Abbas and his backers do not want to maintain the occupation of the Jewish state only, but to also try prevent the future liberation of Jerusalem, and to render the price of its liberation steep; not by a confrontation with the decaying Jewish army but through the involvement of the armies of all the countries of the world.

Dear people in the blessed land: You know that the liberation of the blessed land needs pure, devout, good men like the companions of the Messenger of Allah (saw) and like Salahuddin, may Allah be pleased with them all. You know the words of Allah (swt):

﴿لَتَجِدَنَّ أَشَدَّ النَّاسِ عَدَاوَةً لِلَّذِينَ آمَنُوا الْيَهُودَ وَالَّذِينَ أَشْرَكُوا..﴾

“You will surely find the most intense of the people in animosity toward the believers [to be] the Jews and those who associate others with Allah.” [Al-Ma’ida: 82]

And you also know the words of Allah (swt):

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا لَا تَتَّخِذُوا الْيَهُودَ وَالنَّصَارَىٰ أَوْلِيَاءَ بَعْضُهُمْ أَوْلِيَاءُ بَعْضٍ وَمَنْ يَتَوَلَّهُمْ مِنْكُمْ فَإِنَّهُ مِنْهُمْ إِنَّ اللَّهَ لَا يَهْدِي الْقَوْمَ الظَّالِمِينَ﴾

“O you who have believed, do not take the Jews and the Christians as allies. They are [in fact] allies of one another. And whoever is an ally to them among you - then indeed, he is [one] of them. Indeed, Allah guides not the wrongdoing people.” [Al-Ma’ida: 51]

You know as well, that the Palestinian Authority and its figures have taken the Disbelievers as their allies rather than the believers, and Allah (swt) says:

﴿بَشِّرِ الْمُنَافِقِينَ بِأَنَّ لَهُمْ عَذَابًا أَلِيمًا ﴿١٣٨﴾ الَّذِينَ يَتَّخِذُونَ الْكَافِرِينَ أَوْلِيَاءَ مِنْ دُونِ الْمُؤْمِنِينَ أَلِيَّتُهُمْ عِنْدَ اللَّهِ الْعِزَّةُ فَإِنَّ الْعِزَّةَ لِلَّهِ جَمِيعًا﴾

“Give tidings to the hypocrites that there is for them a painful punishment ﴿١٣٨﴾ Those who take disbelievers as allies instead of the believers. Do they seek with them honor [through power]? But indeed, honor belongs to Allah entirely.” [An-Nisa:138-139]

O People of Palestine... O Good people in the blessed land: We call upon you, alerting and warning you of the terror of this catastrophic crime to Palestine and its people. Fear Allah in the blessed land and do not enable the traitors to Allah's Deen to sell the land. And we remind you of the words of Allah (swt):

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا لَا تَخُونُوا اللَّهَ وَالرَّسُولَ وَتَخُونُوا أَمَانَاتِكُمْ وَأَنْتُمْ تَعْلَمُونَ﴾

“O you who have believed, do not betray Allah and the Messenger or betray your trusts while you know [the consequence].” [Anfal: 27]

We call upon the notables, the influential and the sincere in the political powers, movements, organizations and institutions, to stand in the face of the American projects and stop the hands of the abusers in the blessed land, and expose them.

And we say to the Muslims, the blessed land is your land and the land of Israa' of your Prophet (saw). The people of Palestine look to you foreseeing the Salahuddin in you, and the Minarets of Al-Aqsa Mosque make Takbeers five times a day calling you. So, will you answer the call? Will you respond?

Our address is to the armies in the Muslim world in general and the Egyptian army in particular, who hosts the best soldiers on earth, and to the armies of Jordan, Pakistan and Turkey. We tell them, that the liberation of the blessed land from the filth of Jews is in your capacity and is a great

honor and stature for you in this world and the Hereafter. So answer the call of Allah (swt):

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا مَا لَكُمْ إِذَا قِيلَ لَكُمْ انْفِرُوا فِي سَبِيلِ اللَّهِ اتَّقَلْتُمْ إِلَى الْأَرْضِ أَرْضَيْتُمْ بِالْحَيَاةِ الدُّنْيَا مِنَ الْآخِرَةِ فَمَا مَتَاعُ الْحَيَاةِ الدُّنْيَا فِي الْآخِرَةِ إِلَّا قَلِيلٌ ﴿٣٨﴾ إِنَّا تَنْفِرُوا يُعَذِّبُكُمْ عَذَابًا أَلِيمًا وَيَسْتَبْدِلُ قَوْمًا غَيْرَكُمْ وَلَا تَضُرُّوهُ شَيْئًا وَاللَّهُ عَلَى كُلِّ شَيْءٍ قَدِيرٌ﴾

“O you who have believed, what is [the matter] with you that, when you are told to go forth in the cause of Allah, you adhere heavily to the earth? Are you satisfied with the life of this world rather than the Hereafter? But what is the enjoyment of worldly life compared to the Hereafter except a [very] little. If you do not go forth, He will punish you with a painful punishment and will replace you with another people, and you will not harm Him at all. And Allah is over all things competent.” [At-Tawba: 38-39]

O Muslims: Answer the call of Hizb ut Tahrir and establish the rightly guided Khilafah on the method of Prophethood that will mobilize the liberation Army to the squares of Al-Aqsa Mosque, shouting Takbeer and Tahleel, and returning the righteous biography of Omar ibn al-Khattab and Salahuddin and the noble leaders.

﴿وَلَقَدْ أَرْسَلْنَا مِنْ قَبْلِكَ رُسُلًا إِلَى قَوْمِهِمْ فَجَاءَهُمْ بِالْبَيِّنَاتِ فَأَتَقَمْنَا مِنَ الَّذِينَ أَجْرَمُوا وَكَانَ حَقًّا عَلَيْنَا نَصْرَ الْمُؤْمِنِينَ﴾

“And We have already sent messengers before you to their peoples, and they came to them with clear evidences; then We took retribution from those who committed crimes, and incumbent upon Us was support of the believers.” [Ar-Rum: 47]□

With What Crime are the Noble Women of Iraq Arrested and Tortured?

(Translated)

Human Rights Watch Organization said in a report published on 05/02/2014 CE titled "No One is Safe: Abuses of Women in Iraq's Criminal Justice System", that thousands of Iraqi women are illegally detained and subjected to torture and other forms of abuses, including sexual assault. The organization reported eye witness accounts of women in detention who were subjected to different types of abuses during the detention periods, which have been extended without charge. According to the report, prisoners reported being beaten, kicked, slapped, electrocuted, raped, and others were threatened with sexual assault, sometimes in front of male relatives. According to Human Rights Watch, these women were arrested either in order to extract information about suspected male relative's activities, or for claiming that they support the insurgents, and not because of the crimes that they have committed.

This report confirms that the suffering experienced by Iraqi women under Saddam and under U.S. occupation of Iraq continues. Episodes of murder, detention, torture, violation of honour, insecurity, and political repression... did not stop during the reign of al-Maliki, the creation of the United States and servant to its interests, but instead it has escalated. Maliki, who pays lip service to justice, dignity and human rights, has destroyed justice and subjected all his opponents to different colours of humiliation, prosecution, and physical assassinations by the hands of his cronies and his security agencies, he also built new prisons over what was present during the days of the former regime.

What women in Iraq face in the prisons of al-Maliki is a heinous crime contrary to all human norms, laws and morals. O President of the State of law, which law allows the detention of women and subjects them to forms of abuse and torture without having committed a crime but merely because their relatives oppose the regime? Or do you believe that these arrests are a step on the road to political reforms that you have promised? Or do you think that the arrest of women and violation of their honour will bring security and

eliminate terrorism?

This tragic situation of women inside and outside prisons in Iraq exposes the fallacies of freedom and democracy; that America came to propagate in Iraq and Afghanistan, it only left behind destruction and criminal governments that abused people and facilitated the plunder of the country's wealth country to the greedy.

O Muslim sisters: The Khilafah alone is capable of ending your suffering under these oppressive man-made regimes, and will provide protection and care for you and your children, and will ensure the provision of basic needs and luxury for you and your children if you do not have a breadwinner or the breadwinner can not provide the duty of maintenance. The Khilafah alone will elevate your status and grants you the political and economic participation. The Khilafah will mobilise the armies to punish all those who violated any Muslim woman's honour or insulted her, following the steps of Al-Mutassim.

O Muslims, O Muslim armies: Do you accept that your honour is violated and your women detained? Is there no Mu'tasm who answers the cries of vulnerable women in Iraq and Ash-Sham, and in all the Muslim lands? We urge you to support the oppressed sisters, we urge you to support Hizb ut Tahrir to establish the State of Justice, the Khilafah, the only state that stands by the oppressed and protects the women, and protects and guards the sanctities and honour. By giving support to Hizb ut Tahrir in order to establish the Khilafah, you shall taste the glory in this world and the Hereafter, by the permission of Allah (swt).

“O you who have believed, respond to Allah and to the Messenger when he calls you to that which gives you life. And know that Allah intervenes between a man and his heart and that to Him you will be gathered.” [Al-Anfal: 24]□

Press Release

Authorities in Kyrgyzstan Arrest Five Dawah Carriers

(Translated)

On the 27 of January, the official media in Kyrgyzstan issued news with the headline: "Arrest of Members of the Extremist Group Hizb ut Tahrir in the region of Tchewskaya". The police and security media reported, "On the 25 of January, the members of the Tenth Division at the Department of Homeland Security have arrested members of the extremist group Hizb ut Tahrir in a house in a residential area (Tandik) of the Modunsky Region." The accusation against the members is that they were working to recruit new members. "During the raid, 14 banned radical books were confiscated, 2 journals, 19 CDs, numerous notebooks and leaflets. The materials were delivered to the Department of Investigation at the National Security Committee. The detainees were placed in solitary confinement in the Department of Investigation in the National Security Committee."

Since August 2003, and the Authorities in Kyrgyzstan classified Hizb ut Tahrir as an extremist organization, although there are no reasons or evidences for this, and since then, the party's members have been pursued and arrested, criminal cases have been fabricated against them; and weapons, ammunition and drugs were planted to implicate them, whereas the practice of torture and abuse against the members of the party has become common in Kyrgyzstan. Thousands of young people were thrown in jail due to fabricated criminal cases. During the past year, the Authorities arrested tens of members of Hizb ut Tahrir in Kyrgyzstan and sentenced them to prison for many years. The charges of the members fall under: attempt to seize power, the dissemination of extremist culture, and preparation for a terrorist act... and so on.

This time they arrested five brothers: Abdiev Daminbai Abi Bilalivch, born in 1983 and lived in the neighborhood of Nocar, married and father of two. Zakirov Gouljigit, born in 1988 and lived in the Lilek neighborhood of Batken-skaya area, married and father of two. Wakinov Omotbik, born in 1990, resident of Narynskaya, he is not married. Waristanbik Tintshtik, born in 1992, he was born in the area of Jalalabads kaya, he is not married. Botikif Chengiz, a resident in the Toalaskoy area. They are all in custody in the

prison of the State Committee for National Security, and up until now their lawyers are not permitted to visit them.

During the past ten years, the government in Kyrgyzstan changed three times, and each time the change was through troubles accompanied by looting and violence. The irony is that the governments changed but the accusations against the party and its members are fixed and did not change! It is worth mentioning that during the popular unrest that occurred, no member of the party was arrested among the ranks of the criminals who carried out looting and violence in the streets. None of the members participated in these disturbances and did not side with any one of the ousted governments in Kyrgyzstan. Moreover more than once, the members of the party took part in bringing peace to the ethnic conflicts in Kyrgyzstan.

Certainly, it is unimaginable that the three heads of state in Kyrgyzstan who competed amongst themselves for power in the country, and reached to power by force to overthrow one another, that they agreed amongst themselves against the members of the party, but there must be a third party that moves them like puppets for its interests. This party is more conniving and brutal compared with those quick to perish puppets; it's the bloodthirsty Kremlin regime in Russia, who will not accept to lose its influence in Central Asia. It is well known that the infamous Kremlin regime is hostile in its policy towards Islam and Muslims, and fears the return of the Khilafah state which will liberate Muslims in Russia. It imposes on the rulers of Kyrgyzstan to follow the policy of repression and oppression to silence people and to fight the Dawah carriers and all who work for the victory of Deen.

We in Hizb ut Tahrir emphasize the following obvious facts:

First: Hizb ut Tahrir is a political party with Islam as its ideology. Its objective is to resume the Islamic way of life by re-establishing the Islamic Khilafah in Muslim countries through intellectual and political struggle.

Second: The method that Hizb ut Tahrir adopts is the complete method of Prophet Muhammad (saw) in the establishment of the Islamic state. During the 20 years of the Hizb's work of the members in Kyrgyzstan, the government could not prove not even once the involvement of the party's members in activities of terrorism or extremism. The Hizb rejects material action in its work, not fearing the wrath of the criminal regimes, but following the example of the method of the Prophet (saw).

Third: The party proved that it is resilient in the face of all desperate attempts that the bankrupt regimes resort to in order to suppress the members who carry the dawah; on the contrary this has increased the dawah in strength. We have trust and confidence that the actions of the authority of Kyrgyzstan will add to our steadfastness, determination, [...Cont. on p. 38](#)

Head of the Central Contact Committee of Hizb ut Tahrir in Pakistan
addresses Press Conference

US Presence is the Cause of the Bombings & Chaos Raheel-Nawaz Regime Policy for North Waziristan Will Strengthen American Mischief

The Head of the Central Contact Committee, Saad Jigranvi, of Hizb ut Tahrir in Pakistan, addressed a press conference in Lahore today. This press conference was held to expose the Raheel-Nawaz regime's flawed and false policy regarding North Waziristan.

Mr. Saad Jigranvi said that America is behind the bombings and chaos in Pakistan. Such chaos in Pakistan benefits America alone. It wants the Pakistan military to target tribal fighters, who are crossing the border with Afghanistan to fight the American occupation in Afghanistan.

Saad Jigranvi said that a full-scale military operation in North Waziristan only strengthens the American control on Afghanistan and ensures its presence. America desires to inflame the conflict in Pakistan's tribal areas to put pressure on the militants who are present there and who are fighting in Afghanistan. By this, America aims to reduce the ability of the Afghan Taliban and to force them into a settlement with America, whereby they accept a permanent US presence in Afghanistan, in the form of military bases and private security contractors.

Jigranvi added that as for the operations in North Waziristan themselves, America needs them now more than ever. With its economy collapsing if it has not collapsed completely already, its armed forces demoralized and steeped in cowardice, America is desperate to secure a permanent presence for itself in Afghanistan through negotiations, after a limited withdrawal. That is why it has mobilized traitors within the leadership of Pakistan to raise hue and cry for operations and negotiations. Not only does America seek to achieve a victory that it could never achieve for itself, Muslims suffer further losses for the sake of America's security, just as they suffered during previous operations.

Saad Jigranvi concluded that we will never know of peace whilst America maintains its presence amongst us. The traitors in our leadership point here and there to deceive us on behalf of their American masters, but they will never point out the root cause, which is the American presence. He said that Islam does not allow forging any agreement with an enemy state like America and it is necessary to eliminate the American presence from Pakistan, its bases, embassies, consulates and staff, because without the exclusion of U.S from the region it is very difficult to even imagine peace in the region.

Press Conference Address titled:

“Federalism:

Is it the People's Demand or the West's Demand?!”

When the people of Yemen revolted, their revolution was quickly contained by the West through their agents from organizations, political parties, and politicians. The aspirations of the Yemeni people were to eliminate injustice and tyranny suffered throughout all areas of life, political, economic, social, educational and others, as a result of the application of the capitalist system where the owners of private capital dominate people and their property and rights, combining power and money considering the posts of responsibilities as booty and spoils of war.

The people of Yemen did not revolt in demand for federalism and regions, the thought did not cross their minds. But the West found a window of opportunity to achieve its objectives particularly the U.S. which want to separate Yemen and dismantle it by its support for the Hirak (separatist movement in the south) and Houthis through Iran; America was behind the option of the two regions as a prelude to secession.

Britain hastened to protect its interests, considering what is happening in the country as a crisis and internal conflict between the country's three ruling families as stated by the British ambassador at the time. They worked on finding a settlement that does not compromise its interests and the interests of those families and worked to obstruct America's plan. It was behind the proposed idea of the various regions so that it does not lose its interests.

It is well known that the people did not come out in the revolution demanding federalism, this was not in their minds, but the federal solution was imported from the Western embassies regardless of their differing interests, and this is reflected in the conflict on the wealth of oil and gas, minerals and other wealth of the country.

People came out, complaining of the disease caused by the influential and tyrants who control their wealth, and the effects of the disease from poverty, ignorance, unemployment and political injustice and the deterioration in the situation in all aspects of life: social, political, economic, education and others.

The West intervened and diagnosed this disease and gave the wrong treat-

ment for the disease, which was facilitated by political signatories who have betrayed the people and did not advise them, but assisted the West to convince the people that "this is the right treatment for your disease", and the treatment is federalism. The problem that has plagued the people of Yemen will be resolved after knowing the reality of the problem and the study of the causes and treatment by the trustworthy from the sons of the Ummah, not by the colonizing West and its beneficiaries of agents of surrendering politicians.

Federalism is void and fragile from the Shar' and in actuality:

As from Shar': The ruling system in Islam is not a federal system of separated regions of self-autonomy united in the general government. Rather it is a system of unity that considers Marrakech in Morocco and Khorasan in the East as the Directorate of Fayoum if the capital of the Islamic State was Cairo. The financial and economy of the regions are one, and there is one budget to spend on the interests of all citizens regardless of which state they belong too. If the taxes collected are collected from a wilayah and are more than what it requires meeting its needs, then, only that which is required will be given to it and not according to how much taxes it raises. If a wilayah cannot raise enough taxes to meet its needs, then that is not seen as a problem and it will be spent on from the general budget depending on its needs regardless of whether its taxes met their needs or not.

The ruling system in Islam is of complete unity not a federal one. This is why the ruling system in Islam is unique unlike any of the existing known systems, in its origins and foundations, though some manifestations may appear similar with others. It is a central rule, where the supreme authority is in the centre which rules over every part of the state small or large. It is not allowed for any part of it to have independence so as the state does not fragment into parts. The supreme authority appoints commanders and governors, rulers and officials over the Treasury and economy, in which it appoints the judges in each of its regions, and appoints all those in ruling posts, and directly rules everyone in the state. It is central in the governance and decentralized in administration.

With the expansion of the Islamic State, the Khilafah state, despite the primitive means at the time, but the distribution of wealth reached each citizen of the State, even if s/he were at the borders of the State. Not only that but that the Khaleefah considered himself responsible even for the animals. Omar Ibn al-Khattab said, "If a sheep or mule in Iraq stumbles over, I fear to be asked for not fixing the roads." During the reign of the Khaleefah Omar bin Abdul Aziz he used to say, "Sprinkle seeds on the mountain tops, so no one can say that the birds went hungry in Muslim lands." This is Islam and its state, and this is its justice and system. Those who take pride in other than that, what are they proud of?

As for the actuality: Federalism is not a cure for the problem for the people of Yemen. The problem of the distribution of wealth is not resolved by federalism, because it is not a system where everyone in the regions can benefit from the wealth, but what ensures the distribution of wealth for each citizen in the state is the economic system in Islam and its state. The centre of authority in the Khilafah State does not keep the wealth for itself, but it collects the funds from the states (wilayat) and then distributes it according to the laws of Islam to reach every individual, even if they were at the borders of the state., When addressing a cloud Harun al-Rashid said, **"Rain wherever you wish for your Kharaj (taxes) will return back to me."**

Federalism has faced many stifling economic crises, especially in America. After Obama's victory, 20 of the rich states of America came forth asking for secession because they do not want to bear the burdens of the poorer states.

Although America is based on the world's wealth by colonizing people and by the absorption of their resources, it is wrapped in debt rising to nearly 17 trillion dollars and is home to more than 40 million people living below the poverty line. Thus, if we look at the rest of the federal states existing in the world, we find that people are bearing the brunt of the capitalist system which is implemented on them. Federalism does not achieve a fair distribution of wealth, but it achieves distribution and sharing of power between the feuding parties; the wealth only goes to Western firms and their influential agents under the capitalist system, which governs the world.

Federalism in reality is great injustice; where the rich regions keep their wealth from the other regions. The wealth in Islam is public ownership of all the regions in the Islamic state, The Prophet (saw) said:

«الناس شركاء في ثلاث: الماء والكأ والنار» **"People are partners in three: water, pasture and fire."** Oil, gas and minerals, seas and beaches, public parks and ports ... All that applies to public property belongs to all citizens of the Islamic State and not the property of the state or any individual without the other, though the State is responsible for its management.

Federalism leads to sectarianism and regionalism in the same region or between them and neighbouring regions. Moreover, the federal system creates bitterness and discrimination and sets preferential conditions where priority is given in employment for the people of the region then follows others from other regions.

Present Brothers: Federalism is the fragmentation of the country, which is a prelude to the secession of the regions, especially in light of international conflict and colonialist greed for the wealth, which is not from the plots of the West and America. We do not blame those who are secular as much as we blame those who call themselves Islamic parties and intellectuals, those who

gave fatwa to the people that the federal system is from Islam due to the similarity of the term 'wilayah' in the Islamic State with the term (federal states) under capitalism, knowing that it is contrary in both structure and content.

It is strange that some say that Islam has no ruling or economic system and that there is no text to prove otherwise in the Qur'an or Sunnah?! What is Islam in their view?! Is it the rulings of menstruation and childbirth?! Uttering this made you cheap in the sight of Allah (swt) and so to the people. If what you say is true, then why are you running after power, and what will you rule the people with?! By your whims and imported manmade laws?!

Hizb ut Tahrir has placed a project in the hands of the Ummah that will bring genuine revival to be embraced by the Ummah. It is an obligation and promise. It is derived from the doctrine of this Ummah and is in harmony with it; capable of solving all life's problems. The people of Yemen must hold on to it firmly and abandon solutions imported from the dens of embassies.

For such actions the workers must strive, Alhamdulillah Rab Al-Aalameen□

War on Islam and Muslims

The European countries were ever busy with the wars among themselves, but in the sixteenth and seventeenth centuries, when they saw the Islamic state, the Ottoman Khilafah, had become stronger, greater and more glorious, the kings of Europe forgot their disputes and gathered to fight the Islamic State, full of hatred against Islam and Muslims. They established what was called the "International Family", and so they remained since the sixteenth century. Even after the weakness of the Islamic State and its demise, this continued under the name of "League of Nations" after World War I, and then under the name of the "United Nations" after World War II. The basic idea of the international community remained the same: The war on Islam and Muslims with a change of means and methods but without the change of the general hostility against Islam and Muslims. This basic idea has not changed in the current international position led by America and its allies, it still stems from hostility against Islam and Muslims. The support of the State of the Jews that usurped Palestine, the UN Security Council's resolution on disarmament of chemical weapons, and the plans to plunder the wealth of Muslims are but parts of this very fundamental idea.

Press Release

Who Will Give Victory to the Muslims of Central Africa!

(Translated)

BBC website reported yesterday, Monday 17/02/2014 that "African troops under the auspices of the International Support Mission for Central African Republic (MISCA) have evacuated 2,000 Muslims fleeing sectarian violence in the Central African Republic (CAR) to neighbouring Cameroon. A reporter with the Hausa service of the British Broadcasting Corporation (BBC) travelling with Rwandan soldiers said the convoy carrying the refugees came under attack from anti-balaka militia, who used guns, bow and arrows, machetes, rocks and swords."

Frequent accounts were reported regarding Christians killing Muslims and dismembering their bodies, and even eat their raw flesh. BBC published on 13/01/2014 a detailed investigation about "a cannibal who ate man's flesh in revenge", an eye witness said, "People started attacking him, kicking him. They smashed a rock against his head. They kept going even after he was dead." He went on: "They set the body on fire. There were about 20 youths. They cut a whole leg off. Then one of them started to eat it. He bit into it four times and swallowed. It was raw, not burned." The mob celebrated this heinous crime, they gathered around him, shook his hand and patted his head, smiling and laughing as he, for the first time, smiled broadly. To them, he was a hero. One of them said: "Everyone's so angry with the Muslims. No way anyone was going to intervene."

In contrast, the troops sent by France under the pretext of supporting African peacekeeping forces in the prevention of violence showed full bias towards the spiteful crusader killers, the enemies of Islam and Muslims in their crimes against Muslims and their sanctities, so the case of those appealing for the help of the international forces in Central Africa is like appealing for help from the kettle that is in the fire.

This is only the tip of the iceberg of the crimes being committed against our Muslim brothers in the Central African Republic, by the spiteful Crusaders enemies of Islam and Muslims, killing in the ugliest forms, severe beatings to death, chopping body parts, tearing pieces of flesh, burning with fire,

mutilation, and eating raw human flesh, is a picture from the situation, and it is what the Muslims there are now facing, in the light of French cooperation, international complicity, and the delinquency of the rulers of the Muslims, their stance towards the Muslims of Central Africa is the same as their stance towards the infamous massacre of the Muslims in Srebrenica in the year of 1995, where more than 8 thousand civilians were killed and a systematic rape of the Bosnian women under the sight of the Dutch UN troops. As well as the bloodbath in Ash-Sham at the hands of the US regime, and what has happened before in Burma, Palestine, Avanti, Kashmir, Eastern Turkistan and the rest of the afflicted Muslim lands... These calamities faced by the Muslims around the world will not be stopped or prevented except by the Khilafah State which is the shield of the Ummah and its protector...

Accordingly, the Central Media Office of Hizb ut Tahrir is in the process of developing a campaign in support of Muslims in Central Africa, the Messenger of Allah (saw) said:

"مَثَلُ الْمُؤْمِنِينَ فِي تَوَادُّهِمْ وَتَرَاحُمِهِمْ وَتَعَاطُفِهِمْ، مَثَلُ الْجَسَدِ إِذَا اشْتَكَى مِنْهُ عُضْوٌ تَدَاعَى لَهُ سَائِرُ الْجَسَدِ بِالسَّهَرِ وَالْحُمَى"

“The example of the believers in their affection, mercy, and compassion for each other is that of a body. When any limb aches, the whole body reacts with sleeplessness and fever.” (Reported by Muslim)

The campaign and its content will be announced in due time by the will of Allah.

﴿إِنَّ الَّذِينَ فَتَنُوا الْمُؤْمِنِينَ وَالْمُؤْمِنَاتِ ثُمَّ لَمْ يَتُوبُوا فَلَهُمْ عَذَابُ جَهَنَّمَ وَلَهُمْ عَذَابُ الْحَرِيقِ﴾

“Those who persecute the Believers, men and women, and do not turn in repentance, will have the Penalty of Hell: They will have the Penalty of the Burning Fire.” [TMQ 85:10]□

Question & Answer

What is the purpose of Erdogan's visit to Iran?

Question: On January 28 and 29, 2014 the Turkish Prime Minister Recep Tayyip Erdogan visited Iran. The Middle East Newspaper quoted on 30/01/2014 a source close to Prime Minister Erdogan saying, "The U.S. Treasury Under Secretary for Terrorism and Financial Intelligence, David Cohen, visited Erdogan on the eve of his departure to Tehran the day before yesterday (28/1/2014). The source added that "the Syrian file was a central theme in the visit." The Ministry of Economy of Turkey announced that the preferential trade agreement is signed between Turkey and Iran on the sidelines of the visit of Prime Minister Erdogan to Iran. (Yeni Safak Turkish 31/1/2014).

The question is: The emphasis from the visit is the preferential trade agreement as well as the Syrian file ... Is the intent of the visit the commercial factor or the Syrian file or both? And what is America's role in it? Jazak Allah Khair.

Answer:

1. The main objective of the visit is the Syrian issue. As part of what we have mentioned in the answer to the question issued on 30/11/2013 in which it says the following: (...because of this crisis that is stifling America and preventing its direct influence; because its puppets have failed throughout these three years to have a real say in Syria, and the voices calling for Khilafah stun the ears, eyes, and hearts ... all of which made America look to the countries in the region neighbouring Syria to become its front-line to stand in the face of the emergence of any new rule that adopts the Khilafah as a system of the state, life, and society. America chose to assign this mission to two of its followers: Turkey and Iran, while Turkey is not restricted in movements, Iran, is restricted due to the sanctions and all that follows; restrict-

ing its activity to be influential internationally and regionally, it is semi-isolated. But it is stronger in action against the Khilafah than Turkey; the Khilafah in the culture of the rulers of Iran is rejected, which motivates them strongly to fight against it, while Turkey on the other hand has a long history and legacy of the Khilafah which makes it difficult for the rulers of Turkey to fight the Khilafah. So America's new plan requires the activation of the role of these two countries as mentioned, i.e. to stand in the face of any Islamic movement that seeks to establish the Khilafah in Syria; whether it is through material brutal actions inside Syria, or through political treason in Geneva and the like, so that it can find a new puppet ruler to replace the former one and to paralyse the work for the Khilafah. The Turkish Foreign Minister visited Tehran on 27/11/2013, the talks

focused on cooperation between the two countries in the issue of Syria and the Geneva Conference; what is hidden is far greater ...). End of our previous answer.

America is now busy formulating a political solution with the opposition who lack the support inside Syria; which is to make Iran and Turkey crush the sincere voices that are seeking to establish the Khilafah in Syria, this is to pave the way to find acceptance for any political solution reached in Geneva as a first step to install international intervention and secures the political solution sought by America. This is the main objective of the visit, and this is what was discussed between the U.S. Chief of Staff and Erdogan on the eve of Erdogan's visit to Tehran in 28/01/2014 as stated in the Middle East Newspaper on 30/01/2014 which quoted a source close to Prime Minister Erdogan saying that: " the Syrian file was a central theme in the visit." This shows the active American role in the convergence of Iran and Turkey to prevent any actual orientation of the people in Syria to apply the Shari'ah rule in a Khilafah State, through the brutality and intimidation of Iran, and dishonesty, deceit, hypocrisy and support through the statements by Turkey.

2. Erdogan's visit was preceded by two visits paving the way to this objective:

First: The visit was by the Turkish Foreign Minister which we mentioned in our previous answer. Turkish-Iranian relations gained

strength after the visit of Turkish Foreign Minister Ahmet Davutoglu at the end of last year, specifically in 27/11/2013. On that day the spokesman for the Turkish Foreign Ministry, Zeki Levent Gumrukcu gave statements to the Middle East newspaper, related to the visit, saying, "There is a complete agreement on the development of bilateral relations between the two countries, and there are positive talks on Syria, and a full agreement on the commitment to cooperation between the two countries to resolve the crisis in Syria and stop the blood bath in it." Thus Davutoglu paved the way to the visit by his Prime Minister Erdogan to Iran to strengthen the compatibility between them to solve the Syrian crisis on the basis of the Geneva Conference resolution. It is known that the Geneva Conference 1 and 2 are projects planned by America to maintain its influence in Syria, by maintaining the secular system that follows America by switching some of the people and to prevent the establishment of the system of Islam and the announcement of the Khilafah. The Ma'had site cited on 30/01/2014 that Erdogan stressed during his meeting with Iranian President Hassan Rohani on "the agreement with Iran on the face of terrorism." They mean terrorism in the context of the West i.e. the work of any honest and sincere person for Islam. As well as citing this site, which is pro-Iranian policy, has quoted official sources who announced ahead of the arrival of the Turkish delegation that: " Iran will re-launch its project with its vision

for the solution in Syria and will provide a full explanation." Thus Turkey and Iran have worked to strengthen the relationship to achieve full agreement about the Syrian issue, as mentioned above, and Erdogan's visit is to complete what both sides have been preparing for to serve the American project.

The second is: The visit of the Turkish Intelligence Chief Hakan Fidan with a delegation of special intelligence. Milliyet Newspaper has reported on 30/01/2014 that "the Turkish Intelligence adviser Hakan Fidan visited Tehran before the arrival of Erdogan as the head of an unofficial delegation and stayed with Erdogan in the same hotel." The head of Turkish intelligence holding the Syrian file began coordinating with the head of the CIA from the early days of the outbreak of the revolution on the subject of Syria. This means that there will be intelligence coordination between Turkey and Iran to carry out acts that will implement the American project in Syria, such as spying on the movements of the sincere ones in Syria and methods to get rid of them and destroy their movements and work to contain the others to bring them to support the American project to involve them in the ongoing talks between the regime and coalition personnel, the American followers. The head of the Kurdish National Party, Salih Muslim who deals with the Syrian regime, which is an extension of the Kurdish Party of Ocalan, pro-American, has already met with the head of Turkish intelligence. His statements in the *Middle*

East Newspaper on 21/08/2013 said: "We have to wait for the coming days to see how these promises will be translated, especially those made by the Turkish and Iranians regarding fighting the Islamists."

3. This is the main objective of the visit, i.e. the Syrian file. But due to some considerations it is required to be masked with a trade cover, the purpose of this are three:

First: To reduce the impact of a friendly relationship with Iran to focus on the commercial and trade agreements. This aims to distract the attention away from Syria in the short while, because the position of Iran is hostile to the Syrian revolution and it is a key element in fighting on Bashar's side, while Erdogan pretends that he is with the Syrian Revolution! Making the visit focused on a single goal and the Syrian crisis embarrass Erdogan and reveals that his claim that he supports the revolution and its victory are nothing but empty words not followed by action ... Therefore by giving the visit a business focus is as if to say that this has no relation to Erdogan's stance in support of the Syrian revolution which is deception and misleading.

Second: To attempt to mitigate corruption scandals involving those close to him, these scandals revealed that bribes were offered by Iranians to Turkish officials to pass trade deals between Iran and Turkey. Erdogan wants to use the trade agreements that are held to say that these are not bribes, but rather a trade relationship between the two countries and the

transfer of funds are legitimate and not contrary to the laws, and that the so-called bribery is nothing but a commission in exchange for doing business with those! And he thinks in this he paves the path for the acquittal of his ministers' sons who resigned following the scandal, as well as others of his followers and supporters who are being tried on this issue.

And third: Erdogan wants to strengthen confidence in the Turkish economy which was rocked following the corruption scandal that lowered the exchange rate of the Turkish currency significantly, bringing the dollar in this day to equal 2.6 liras; before this crisis it was equal to two liras. It is worth mentioning that when Erdogan cancelled the zeros and announced the new lira traded from 2009, it was equal to one dollar. The scandal affected the Stock Exchange of Turkey, according to unofficial sources that the losses amounted to about 100 billion dollars since the detection of the corruption scandal; which exposed that the Turkish economy is virtual and unstable; and it depends on debts. Turkey's foreign debt has doubled from 130 billion dollars at the end of 2002, when Erdogan's party came to power. This amounted to 374.456 billion U.S. dollars at the end of December 2013 (trade and economy page 01/02/2014). Erdogan wanted to handle this situation by holding trade agreements with Iran, and this may benefit him in improving the percentage of votes for the AK Party in the upcoming local elections, where some media poll estimated that the

rates of the party sank to 42%, and some even said it sank to 39% due to the deteriorating economic conditions, following the corruption scandal, which Erdogan considered as a coup attempt against his government.

4. Therefore, the main objective of this visit is to agree on a political solution in Syria and prevent any movement by the people of Syria towards the rule of Islam ... Then there is the packaging for this business objective to ease the embarrassment on Erdogan because he did not want to be seen as hypocritically supporting the Syrian revolution at a time when Iran is supporting Bashar with its brutality, Erdogan does not want to show that his visit to Iran is a conspiracy against the Syrian Revolution... In addition to that, beside this purpose there is justification for the commission as a result of the financial business with Iran that they are not bribes paid to those close to him, this eases the scandal of them ... The presence of movement in the trade exchange between Iran and Turkey might improve the conditions of the AKP in the next elections. But Erdogan overlooked or feigned overlooking that the financial scandals and political projects in treading the path to implement American projects cannot be concealed.

The Hukm Regarding the Work with Palestinian Liberation Organization

Alhamdulillah to who has given us the grace of Islam, and made the measure of our actions the Halal and Haram. And peace and blessings upon our Prophet Muhammad whom Allah sent to us for guidance, and made him the master of the Messengers, and the last of the Prophets...

It has been proven beyond any doubt that the purpose of the Palestinian Liberation Organization's existence, with its leader Ahmad Al-Shukairy, is to separate the West Bank from Jordan, and establish a separate entity in the area. The second state does not include neither Al-Quds nor Bethlehem, and this action is undoubtedly to tear an Islamic land into three entities. The state of Palestine, and the internationalized entity of Al-Quds, and the state of east Jordan, and this is in contradiction with what Allah ordered, which is the unification of Islamic lands. This is indicated in the Sahih Ahadeeth as a decisive forbiddance. It is upon the Liberation organization, and its Muslim leaders, to do what is prescribed for the Muslims, that are to eliminate Jordan as a whole and integrate it with another Islamic land, such as Egypt, Iraq or Syria. Not to tear it into three entities, one of them being the internationalized entity of Al-Quds in the hands of the Kuffar. Therefore, the purpose of the Liberation organization is a great sin, and acting upon it is Haram, and to advocate for it is a horrific crime. Hence, it is Haram for every Muslim to be part of this organization, and it is Haram to work with it for this purpose even though one would get paid. It is also Haram to support with money or effort or anything else, and it is Haram to help them in any type of matter, whoever does any of this has disobeyed Allah, and disobeyed His Messenger.

﴿وَمَنْ يَعْصِ اللَّهَ وَرَسُولَهُ فَإِنَّ لَهُ نَارَ جَهَنَّمَ خَالِدًا فِيهَا أَبَدًا﴾

«Whoever Carries Arms Against Us

(Translated)

Yassir Arafat and his Authority have not found a way to prove to America and Israel his good behavior and ability to control the situation that they entrusted him with after he seemed incapable of doing so due to the growing public rejection of him and his Authority, except by carrying out a crime against the Muslims that left tens of their sons dead and wounded. It was incumbent on him, when he faced this rejection after he was brought in an unnatural way just, as the rulers of Kuwait were put forth and previously all the rulers of the Arab states against the wishes of the people, it was incumbent on him to immediately leave Gaza; not to turn its people into killed, wounded, and prisoners in a manner that the people most hostile to those who believe did not do in the most fierce and violent Intifada days.

And he in this heinous act yearns that matters would stabilize for him as they were stabilized for him in the region, and as they are stabilized for all the rulers of the Muslims by the edge of the sword after he failed at gaining the approval of the people and to contain them pertaining to what came in the dialogue. And it is true that such crimes did not come to surprise anyone who has experience with Yassir Arafat and his associates from this Ummah that is because one who abandons the Islamic belief as the basis for all their actions does not find anything to deter him from doing anything to achieve what he sees as his personal interest. Not to mention that what is new is this overt and flagrant challenge against the feelings of the people and their will and the turn against those intended to be freed by a faction that has always falsely raised the slogan of freedom and democracy. At the same time it is not a new catastrophe for the Ummah that the Kuffar have produced from the souls of its sons tools for the implementation of their plans, and from its land fertile ground to sow the seeds of turbulence, and the Kuffar would not have managed to do if not for those corrupt choices that many people still hold on to, and in order to be rid of these catastrophes that fall on the Ummah hour after hour. Then it is necessary to hold on to the correct choice, the choice of Islam that guarantee riddance from these woes, and an immediate stop to its bleeding wounds and immediately carry out what this choice dictates on this Ummah of working to reestablish the Islamic way of life and establish the state that oversees its implementation internally and carries a message to the world. And as long as no corrupt choices have been stricken out then just as the Hebron massacre was not the last from the Jews then this catastrophe will not be the last from Arafat and his associates.

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا اسْتَجِيبُوا لِلَّهِ وَلِلرَّسُولِ إِذَا دَعَاكُمْ لِمَا يُحْيِيكُمْ﴾ “O you who have believed, respond to Allah and to the Messenger when he calls you to that which gives you life.” [al-Anfal: 24]□

At the end of January 2014 CE, news arrived from Tatarstan regarding the arrest of several Muslims. Detention, inspection, kidnappings, torture, and trials have become a repeated occurrence, all of which makes conveying this painful news difficult. **Pakistan's Constitution is not Islamic
no matter how many Fataawa are issued**

News:

Bilawal Bhutto Zardari, the patron-in-chief of the Pakistan People's Party, on Saturday, 16th of February 2014, slammed the Taliban for trying to drag the country back to the "stone-age." He said, "The Taliban want to impose the law of terror in the country, but I want to tell them, if you have to live in Pakistan you will have to follow its constitution". [*Indian Express*, 18 February 2014]

Comment:

Since the start of the negotiations process between the Raheel-Nawaz regime and Tehrik-i-Taliban Pakistan, a strong discussion in the media has been started regarding the constitution of Pakistan, as to whether it is Islamic or un-Islamic. The government contacted leading Ulema to get their Fatawa's that the 1973 Constitution is an Islamic constitution. Similarly almost every political party that calls for Islam, declared the 1973 constitution as Islamic. They even went a step forward and declared that Sharia is being implemented in Pakistan.

There is no doubt that the current constitution of 1973 is built on British India Act 1935 and The Indian Independence Act of 1947. After the creation of Pakistan, a discussion started in the legislative assembly as to how to make the constitution an Islamic one. This discussion resulted in the shape of Objective Resolution and it was made the part and parcel of the constitution. In this resolution, it was declared that sovereignty belongs to Allah, but in the very next sentence, the authority to legislate was handed over to parliament. So the constitution is rooted in man making law according to his whims and desires, not in the commands and prohibitions of Allah (swt). The current constitution is for democracy and contradicts Islam and its state, the Khilafah.

Knowing the desire within the Muslims to fulfill the dream of their forefathers in establishing Pakistan for the sake of Islam, successive regimes have played lip service to Islam. Article 221 (1) was introduced stating that no law will be legislated which is contradictory to Islam, instead of stating that every law can only be extracted from Quran and Sunnah. According to Article 228 an Islamic Ideology Council was

formed which has to only recommend changes in the laws to make them Islamic. The council's recommendations are not binding on the parliament. Therefore, since its inception, the council has submitted more than six thousand recommendations, but none have been passed by the parliament. Also, a Federal Shariah Court was established under article 203D (1) but it has been barred to hear constitutional petitions and its verdicts can be challenged in Supreme Court of Pakistan. The promulgation of the Federal Sharia court itself is an evidence that other courts are non-Shariah.

The people of Pakistan now know that the current constitution and the entire system established under its protection are not from Islam. They know that because under this constitution of democracy, Riba is Halal, concentration of wealth is increasing, obscenity and vulgarity is being promoted, cases linger on for years and even decades in the courts and even then justice is not delivered, the poor are taxed beyond that which they can bear, the public property of the Ummah is being privatized, sanctity of life and property are not guaranteed and Kafir Harbi countries are allowed to operate military bases, intelligence offices and embassies to spread their mischief.

Under this situation, Ummah only considers Islam as its refuge and the desire of establishing Islam is increasing day by day. It is the deception of the Kuffar and their agents that you can change hundreds of articles of the constitution and thousands of laws in order to make them Islamic, if you have the majority in the parliament. The need of the time is radical change, abolition of democracy and its constitution and the immediate implementation of Islam comprehensively and exclusively. And this can only happen with the establishment of Khilafah.□

Central African Republic: Ethnic Cleansing of Muslims

An exodus of Muslim traders fleeing attacks by Christian militia in Central African Republic has pushed food markets there to the brink of collapse, threatening the nation with even deeper crisis. United Nations estimates that 1.3 million people, more than a quarter of the population, are already in need of urgent food aid after months of communal violence that French and African peacekeepers have been unable to stop. The poor, landlocked country descended into chaos after the mainly Muslim Seleka rebels seized power in March. International pressure that saw Seleka leader Michel Djotodia resign last month. That in turn has been followed by Christian militia attacks on Muslims. Tens of thousands of terrified Muslims have fled the capital Bangui in recent months, many involved in trade with neighbouring countries that once kept the city of 800,000 supplied with staples like sugar, flour, fuel and soap. In the market of Petevo, close to the banks of the Oubangui River in the south of the city, dozens of dusty stalls stand empty and meat is scarce since the Muslim traders who control the trade in cattle from Chad

deserted the city. "We are very worried because if these shortages last longer there will be nothing left in the market and a lot more people will die of hunger," said Nadege Kodo, a woman dressed in colourful traditional robes who was searching for supplies. With 9 out of 10 people eating just once a day, according to the United Nations, the country is in dire need. Trucking routes from Cameroon have shut as machete and gun-wielding Christian militiamen prowl the countryside, slaughtering Muslims. As Muslims do most of the driving jobs, hundreds of trucks are stranded at the border. According to a survey by Oxfam and Action Centre la Faim, supplies of staples to Bangui come from some 40 wholesalers who import provisions. Fewer than 10 of these wholesalers remain and they threaten to leave soon if security does not improve. "There's already a very serious food crisis in Central African Republic," said Steve Cockburn, Oxfam's regional campaigns manager. "The problem is that the situation is going to get much, much worse. "Unless communities are better protected, more populations, more traders, more herders will leave the country and there'll be a breakdown in supply in Bangui and beyond." On the dusty streets of the capital, a spate of daylight attacks on Muslims over the past week, including one by uniformed members of the armed forces, has raised alarm. Medecins Sans Frontiers (MSF) said it treated 100 patients for bullet and machete

wounds last week at a sprawling camp beside Bangui Airport, home to 100,000 homeless people. "People are coming in without noses, ears, nipples," said Lindis Hurum, MSF's departing project coordinator at the camp. "One guy came in holding his head to keep it from falling as he was cut with an axe on each side of the neck." The International Criminal Court said on Friday it would open a preliminary enquiry into possible war crimes. The United Nations says that more than 2,000 people have been killed and more than 800,000 displaced, half of them in Bangui. [Source: Arab News]

Expelled Muslims Should Get Citizenship Too

Descendants of Muslims who were expelled from Spain in the 17th century have criticized the Spanish government for only granting citizenship to the country's former Jewish population, saying the move could be "racist." Moriscos, meaning Moors in English, was the name given to the Spanish Muslims who decided to convert to Christianity to avoid expulsion under Monarchs Isabella and Ferdinand in the early 1500s. Although they were allowed to remain in Spain for over a century longer than their Jewish counterparts, King Philip III decreed the Expulsion of the Moriscos in 1609, forcing them all to flee to neighbouring Muslim North Africa. Now that Spain's Justice Ministry has decided to grant citizenship to the descend-

ants of the Sephardi Jews who were expelled 522 years ago, associations fighting to keep the memory of Muslim Spain alive are calling for the same civil code changes for the Moriscos. "The Spanish State should grant the same rights to all those who were expelled, otherwise their decision is selective, if not racist," Bayi Loubaris, President of the Association for Historical Legacy of Al-Andalus told Spanish news agency EFE. Loubaris still believes the ruling granting citizenship to Spain's Sephardi Jews is "very positive", arguing it acts as acknowledgment of the "guilt of the Spanish State in expelling its own citizens." Even though the descendants of Spain's Moriscos have less chance of obtaining dual nationality than Sephardi Jews, Loubaris's association is primarily focussed on obtaining recognition for what happened to Spain's Muslim population, how they left their mark on Spanish culture. Although approximately 300,000 Morisco descendants in Northern Africa no longer speak Castilian Spanish, they took with them the architecture, gastronomy and music which typifies Andalusia to this day. Yemen to Become Six-Region Federation

A presidential panel has agreed to transform Yemen into a six-region federation as part of its political transition, state news agency Saba reported. The final approval on creating a "federal state of six regions" came at a meeting of the

panel, headed by President Abd-Rabbu Mansour Hadi and including representatives of Yemen's main parties, Saba said on Monday. Hadi formed the committee in late January at the end of a "national dialogue" to decide on the number of regions, and to insert it into the text of a new constitution, to be drafted and voted on within a year. The six agreed regions include four in the north - Azal, Saba, Janad and Tahama - and two in the south, Aden and Hadramawt. The Southeastern Hadramawt province would include al-Mahra, Shebwa and the island of Socotra, while Saba comprises Bayda, Marib, and Al-Jawf. Azal would include the provinces of Dhamar, Amran and Saada, a rebel stronghold, while Aden would comprise the capital of the former south, as well as Abyan, Lahej and Daleh, the news agency reported. The capital city of Sanaa will not be affiliated to a region and will have "a special status in the Constitution to guarantee its independence and impartiality", said the state news agency. Janad would include Taz and Ibb, and Tahama also takes in Hudaydah, Rima, Mahwit and Hajja. Yemen's parties had been divided on whether to split the future federation into two or six regions. The government feared that a straight north-south divide could set the stage for the disgruntled south to secede. [Source: Reuters] □

Egypt Army Chief Sisi says Will Run For President: Report

Egypt's army chief Field Marshal Abdul Fattah al-Sisi has said he will run for president, a Kuwaiti newspaper says. Asked by the *al-Seyassah* Newspaper if he would be standing, the army chief said he had to meet the wishes of the Egyptian people and run for election. He had been widely expected to declare his candidacy but there has been no official confirmation from the army. The army leadership backed him to stand in the election last month, promoting him to the rank of field marshal. Presidential elections in Egypt are due within six months. Correspondents say Field Marshal Sisi is expected to win by a landslide if he does indeed become a candidate. "I will not reject the demand [of the people]," Field Marshal Sisi told *al-Seyassah*. "I will present this to the Egyptian people to renew confidence through free voting." Last month, Egypt's Supreme Council of the Armed Forces (SCAF) gave its approval for Field Marshal Sisi to run for the presidency, saying: "The people's trust in Sisi is a call that must be heeded as the free choice of the people."

The state-run *al-Ahram* Newspaper said his chief-of-staff, Gen Sedky Sobhy, had been chosen to replace him as head of the armed forces. Field Marshal Sisi's supporters say he is a strong leader who can restore stability after years of unrest. However, his critics say he is a military hardliner who is returning Egypt to the repression of the past. [Source: BBC] □

Return of the Khilafah

A vision of Pakistan under the Khilafah and how an Islamic constitution will give rise to policies of revival

Hizb ut Tahrir
Wilayah Pakistan

Introduction

Since the end of Islamic rule in the Indian Subcontinent through the occupation of the British colonialist and the subsequent destruction of the Khilafah of the Ummah, we have suffered for decades under successive rules of democracy and dictatorship, despite the fact that Pakistan was created in the name of Islam.

However, for years now, there are evident signs throughout the Ummah of the return of Islam as a state and rule. The call for Islam is now strong within the entire Ummah, from Tunisia to Syria and right across to Indonesia. Pakistan is no exception and our enemies fear that as it is the most powerful Muslim state:

In an interview in March 2009, David Kilcullen, advisor to the US CENTCOM Commander, said, "Pakistan has 173 million people,

100 nuclear weapons, an army bigger than the US Army...We're now reaching the point (of)...an extremist takeover -- that would dwarf everything we've seen in the war on terror today."

An article published in the *New Yorker* on 16 November 2009 stated, "The principal fear is mutiny" that extremists inside the Pakistani military might stage a coup...A senior Obama Administration official brought up Hizb ut Tahrir...whose goal is to establish the Caliphate (Khilafah).

A great change is occurring in Pakistan and there has been significant progress in recent years. People have rejected democracy and dictatorship as tools of the colonialist. They understand that neither system has any semblance to Islam. People are aware that any leadership that enters the existing system can only bring more failure, neglect and problems. The grass roots debate has now reached the stage that the people are asking about how Islam will practically manage their affairs. People are asking specifics of a constitution based on Islam, derived from the noble Quran and the blessed Sunnah.

Hizb ut Tahrir has prepared a complete body of knowledge about the Khilafah. This includes a 190 article Introduction of the Constitution, complete with Islamic evidence. It also includes a library of books discussing the details of the systems and policies that the Khilafah will implement. □
